## **EPA Extends Public Comment Period on Cleanup Plan for Passaic River**

### **Promotes May 7th and May 21st Public Meetings**

Contact: Elias Rodriguez, (212) 637-3664, rodriguez.elias@epa.gov

(New York, N.Y. – May 7, 2014) On April 11, 2014, the U.S. Environmental Protection Agency announced a proposed cleanup to remove 4.3 million cubic yards of highly contaminated sediment from the lower eight miles of the Passaic River in New Jersey. The sediment in the Passaic River is severely contaminated with dioxin, polychlorinated biphenyls (PCBs), heavy metals, pesticides and other contaminants from more than a century of industrial activity. The lower eight miles of the Passaic is the most heavily contaminated section of the river. Ninety percent of the volume of contaminated sediments in the lower Passaic are in the lower eight miles of the river. The EPA is proposing bank-to-bank dredging – one of the largest volumes ever to be dredged under the EPA’s Superfund program – followed by capping of the river bottom. The agency is extending the public comment period, which was set to end on June 20 to a new deadline for public comments of July 21, 2014.

The EPA will hold three public meetings to explain the proposal and accept verbal comments. People may also submit written comments by mail or email.

\* May 7, 2014 at 7:00 p.m.

Portuguese Sports Club

55 Prospect Street

Newark, NJ, 07105

\* May 21, 2014 at 6:00 p.m.

Franklin School auditorium

100 Davis Avenue

Kearny, NJ 07032

\* June 2014 in Belleville, New Jersey

Details to be determined
